Abraham Lincoln, defendant; Lincoln's most interesting lawsuit, by William H. Townsend ... Boston and New York, Houghton Mifflin company, 1923.

vii, [1] p., 2 l., 3-40, [1] p. front., facsim. 24 $\frac{1}{2}$ <sup>cm</sup>.

The facsimiles here given are taken from the records of the Fayette Circuit court and from letters of Abraham Lincoln.

A petition was filed in the Fayette Circuit court, Lexington, Ky., May, 1853, by Edward Oldham and Thomas Hemingway, surviving partners of Oldham, Todd & company, claiming that Abraham Lincoln collected certain money, as their attorney, which was not paid over. Four depositions, constituting the proof for Lincoln, were filed in the Fayette Circuit court, November 23, 1853, and so completely was the charge refuted that the plaintiffs on January 16, 1854, filed a motion to dismiss the case, which was done at their cost, February 10, 1854.

Title vignette (coat of arms, reproduced from the book-plate of Epes Sargent, jr., engraved by Paul Revere)

"This edition is limited to five hundred copies ... This is number 146."

"The descendants of Epes Sargent ... are indebted to ... Winthrop Sargent, of Haverford, Pa., for this volume. At his request Dr. Samuel Worcester ... began in 1912 to gather information which is the basis of this genealogy. He ... died in 1918 before his work was completed ... Mrs. Paul Dana ... took up the work in 1920 and occupied herself in gathering and arranging additional information. Mrs. Dana died in 1922 ... Mr. Winthrop Sargent at once assumed the ... work of gathering the additional information needed for the book, and his wife ... arranged the different family groups and prepared the manuscript in its final form for the printer."—Pref.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS.

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

Class "a", books received with informal applications or informal affidavits, or without the registration fee; or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

Class "b", books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b," the manner of handling them in the Copyright Office enables the larger number to be given promptly a registration number, and such books are sent forward from the Copyright Office for cataloguing on the day of receipt, or the day following. These are usually books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited but also nearly all the important books.

During the year 1923, out of a total of 13,669 books received and drawn up into the Library of Congress from the Copyright Office, 10,562 belonged to class "b." Of these 5,236 were sent up on the day they were received in the Copyright Office and 5,326 on the day following their receipt. Three thousand one hundred and seven belonged to class "a" and were sent up on various dates.

## PROMPT INCLUSION OF TITLES IN THIS CATALOGUE.

The Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed with entries arranged alphabetically by authors, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the Act of March 4, 1909, for ad interim protection. A complete index to all the authors, copyright proprietors, and anonymous titles of books for the entire year is printed as promptly as possible after the books for the year have been received.

In order to secure to librarians the promptest possible information as to the American and foreign books deposited for copyright and included in the Catalogue of Copyright Entries for Books, one copy of the two required by law to be deposited is promptly sent to the Catalogue Division of the Library of Congress. As rapidly as these titles are returned to the Copyright Office they are printed every other day in signatures of 8 or 16 pages, and the Superintendent of Documents forwards these signatures at once to all libraries subscribing to the Catalogue or receiving the Catalogue as depository libraries. In order to economize and to secure speed in printing and delivery, these signatures have no title or cover, but each has continuous paging and in the lower left-hand corner in large type the year of the Catalogue, its sequence number, and date of printing. This mode of printing is for Part 1, Group 1 (books proper) only. The list of copyright renewals and extensions made for books under section 24 of the Act of March 4, 1909, and any other text matter not necessary to the list of book titles is printed with the annual index at the end of the year.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herdbooks, and other annuals, etc. Group 2 also contains in five separate alphabets the titles for the entries made for Lectures, sermons, and addresses prepared for oral delivery, Dramatic compositions, Maps, Motion pictures, and a list of copyright renewals and extensions for Dramatic compositions.

Under the Act of March 4, 1909, in effect from July 1, 1909, the preliminary entry of titles has been abrogated and registration follows deposit of copies with an application for entry in the Copyright Office.

The copyright notice states when the book was published, when the copies and affidavit were received, the class and entry number, and the claimant of copyright. To save space the notice is abbreviated as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons, and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2 c." for 2 copies, or "1 c." for 1 copy, followed by date of receipt; "aff." stands for affidavit of American manufacture, followed by date of its receipt. "A ad int." implies ad interim copyright registration under

## PROMPT INCLUSION OF TITLES IN THIS CATALOGUE

the Act of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number, by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number in parenthesis, printed with a hyphen immediately following the copyright notice of the books for which such cards are supplied.

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part I, Groups 1 and 2, is \$1 for 1924, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

## NOTICE.

---

The Copyright Act of 1909 provides that of the articles deposited for copyright registration the Librarian of Congress shall determine what books and other articles shall be transferred to the permanent collections of the Library of Congress and what other books or articles shall be transferred to other governmental libraries in the District of Columbia for use therein.

The act further provides that any article undisposed of as above and still remaining on the shelves of the Copyright Office may be returned to the claimant of copyright under the provisions of section 60 of the act.

NOTICE is, therefore, hereby given to any author, copyright proprietor, or other lawful claimant, that in so far as any copyright articles deposited from July 1, 1914, to June 30, 1919, inclusive, are still remaining in the files of the Copyright Office, and are not to be transferred to the Library of Congress or to any other governmental library in the District of Columbia, such books or articles may be returned to the claimant of copyright if requested by such claimant prior to December 31, 1923.

This notice includes any *printed and published* copyright deposits, such as books, periodicals, dramatic compositions, musical compositions, engravings, cuts or prints, lithographs, photo-engravings, or photographs. Manuscript or typewritten dramas and photographs filed for identifying works of art may not be returned. No maps are available for return.

To secure such possible return the claimant of copyright of record should make formal request for the return of the articles, which must be separately and definitely specified. A suitable blank will be supplied on request. Address REGISTER OF COPYRIGHTS, Library of Congress, Washington, D. C.
